

UNC Green Labs

Meeting Agenda

Health Science Library Rm. 127

4/25/16

- Energy: Lab computers - Drafting a game plan. - Recommended not to aim for putting these tips on the checklist because use is very individualized by person and by departmental IT. Plan currently to make a list of recommendations, run it by IT (OASIS), and then possibly make a handout/flyer.
- Energy: Stirling freezer—updates? - Amy talked to Jessica O’Hara and she is aware of the freezer failing and will need to talk to Britt before moving forward. They are aware of the Eppendorf and will get to it by the end of May (estimate).
- Energy: Shut the sash competition in the Fall - Jessica O’Hara (tabled until she can come)

- Energy: Green Guide checklist - put online, turn into project.- Game plan to get some labs to agree to do it. - Nita will do gap analysis for her lab (Chemistry). Get someone from School of Medicine and Lineberger (Amy has added someone to the listserv).
