To: Steve Hargett (HVAC Services)

Steve: Just wanted to let you know how much I appreciate your guys, Rich [Brand] and Chris [Morris], completing the drinking fountain project at the SRC... can't tell you how many patrons have been asking for that second fountain with bottle filler. I understand how stretched everyone is and appreciate receiving the attention. Both Rich and Chris are thoroughly professional and courteous. Hopefully, the momentum can carry us right through the Rams Head and Woollen projects ASAP... not sure if the work will be done by your shop or the Plumbing Shop.

Thanks and Happy Holidays.

Campus Recreation

To: Lou Buarotti (Design & Construction Services)

I saw that they wrapped up yesterday. Kudos to all on this -- department chair very pleased. The flexibility shown by your workers [David Sichi and Jerry Woods (Radar)] to place the rails and paint the walls in one day to finish the job earlier than planned was impressive.

Please pass along our thanks to the workers and all concerned...

Received from the Web:

Hi--

My department had a great experience yesterday with employees who I assume are from Facilities--the embarrassing thing is that I don't know their names![Terry Tripp, Terry Hornaday and Alan Moran] The person who set up their visit is out of the office now, so I couldn't ask her. We were having windows added into our doors at the Learning Center and the Writing Center in SASB North. The men who did the work were both very professional and very funny and pleasant. They worked quickly and did an amazing job--these doors look like they have always had windows, not like the windows were added after the fact. Everything is aligned really well, and the trim looks great. We're very happy with the doors and with the service we received from these craftsmen, and I'm hoping you'll let them and their supervisor know that we appreciate their work (if you can figure out who they are!).

Assistant Director

To: Joe Emory (Building Services)

Joe-

I wanted to thank you for the recent repairs to the Knapp-Sanders Building. As Director of Facilities for the School of Government, I take a lot of pride in this building and its upkeep, as well as keeping the building safe for its occupants and visitors. It was refreshing to see that you shared this sense of pride in our building as well as the rest of campus. I appreciate all of the hard work that you and your staff put into helping to keep the Knapp-Sanders Building not only safe but attractive, and I appreciate all that Facilities Services did on this project. I look forward to being able to work with you in the future. Again,

Thanks-

Lee Colavito
Director of Facilities & Distribution Services
School of Government

A huge thank you to Timmy Lee and the other workers in Plumbing Shop #562, Mark Bristol and Joe Emory in getting our kitchen/breakroom back up and operating in record time following a leak in the hot water heater. We are all so appreciative of your fast response, hard work and your coordination with other shops to get everything back together and working.
