

Green Labs Meeting Minutes – October 24th, 2014

In Attendance: Amy Preble, Gene Bober, Nita Eskew, Christina Lebonville, Kristin Blank-White, Matthew Smith, Sarah Lowder

1. **America Recycles Day/Campus Sustainability Day** – Then event runs from 11-2 and we need volunteers for at least 12-2 on November 13th if we want to table at the event. We already have all of the information and displays needed for the interactive part. If you are interested in volunteering, email Sarah at slowder@email.unc.edu by Sunday, November 2nd.
2. **Nitrile Glove Recycling** – 4 boxes have been filled. 8 boxes are required for a pallet to be ready to ship. Student enthusiasm is high and at this rate we will need about 2 shipments a year. Nita is looking to Kimberly Clark to supplement shipping costs since the university gives them so much business.
3. The **payback information for Stirling Freezers vs. Revco UxF freezers** will be attached to the email.
4. **The Recycling and Energy Management Posters are being distributed.** Those at the meeting took several for their buildings. The rest shall be mailed through campus mail.
5. November/December Meeting will be combined and will occur on the first week of December at the same time and place. **So the next meeting will be Friday, December 5th at 2:00 in Murray 4202.**
