

UNC-Chapel Hill and OWASA Construction Contractor Outreach Luncheon

Tuesday, June 7, 2022 · 11 a.m. to 2 p.m.

The Friday Center · 100 Friday Center Dr · Chapel Hill, NC

The UNC-Chapel Hill Facilities Services Office of Construction Management and Historically Underutilized Businesses is partnering with the Orange Water and Sewer Authority (OWASA) for a joint construction contractor outreach event.

Join us for a relaxed luncheon mixer (lunch will be served at noon). Our goal is to make and renew connections with minority firms while providing networking opportunities for large and small minority and nonminority construction firms. Information about upcoming University and OWASA projects will also be provided. Following the luncheon, OWASA will be offering tours of their facilities to those interested.

We hope to see you there!

Please RSVP by May 30 at
go.unc.edu/luncheon
or scan QR code provided.
